# 報BITE ALARM

THE HIGHEST QUALITY

## SASAME WIRELESS BITE ALARM SET, "KOYKOY"

New unique designed wireless bite alarm set, KOYKOY has 3 big features.

- 1) Various Volumes Tones and Sensitivities are available!
- 2) Water resistance system!
- 3) Wireless distance up to 150m!

### 3 alarms + 1 receiver F-600

### 4 alarms + 1 receiver F-601

3 alarms + 1 receiver (code: F-600) and 4 alarms+1 receiver (code:F-601) are available.

Use 9V batteries for both alarms and receiver (batteries not included). Powerful 9V batteries will help you long time fishing.

## ABOUT SETTING OF "KOYKOY"

### ■How to use

Open backboard, put 9V battery for each alarms and receiver. Automatically power on when you put batteries. On/Off switch is in the bottom. Automatic switch off system is equipped but suggest you to switch off when you stop fishing. When you want to use, please check numeric display showed "8" it means you can operate the alarm.

### ■Setting Instruction

#### Alarm:

##### 1) Tone

Press the red triangles button.  
When the red light appears, press M button to set the tone.

##### 2) Volume

Press the red triangles button.  
When the green light appears, press M button to set the volume.

##### 3) Sensitivity

Press the red triangles button.  
When the yellow light appears, press M button to set the sensitivity.

#### Receiver:

Use 9V battery. Open backboard and put battery same as alarm.  
You can change 4 kinds of tones, 3 kinds of tones & vibrations and single vibration by center button.  
When fish bite the hooks, the receiver will receive the signal from the bite alarm at the same time. It will indicate(vibration) and the LED light will flash accordingly. The LED light flash 30seconds continually.
